

DSG Matric Results 2021

We are delighted to announce our outstanding
2021 Matric Results

The year has started off well, and we are delighted to announce excellent 2021 Matric results for DSG. Out of the cohort of 86 Matrics, 84 attained a Bachelor's Degree (BD) pass, one obtained a Diploma pass and one pupil will be writing Supplementary Examinations. Of all the subject symbols achieved, 35% were distinctions and 36% were B-symbols.

Three of our Matrics were listed in the Top 1% of candidates per subject in five subjects. A warm congratulations to the following girls:

- **Sarah Floquet** (Top 1% for English Home Language and Top 1% for Visual Arts)
- **Jemma Boonzaier** (Top 1% for History and Top 1% for Life Sciences)
- **Indiphile Duda** (Top 1% for isiXhosa First Additional Language)

In addition, **Jemma Boonzaier** was placed on the IEB Commendable Achievement list for achieving within the top 5% in 5 subjects and achieving a rating level of 7 in Life Orientation.

Our 2021 Dux Scholars, **Jemma Boonzaier** and **Sarah Floquet** achieved a full house of distinctions, along with **Tayla Barrett** and **Rebecca Millard**. **Chelsea Cordner**, **Emma-Jane Gouws** and **Nicola Voges** achieved 6 distinctions. Six Matrics obtained 5 distinctions (**Josie Andrew**, **Jessica Coxwell**, **Janet Lancefield**, **Jessica Ovendale**, **Kei Repapis** and **Nicola Shakerley**). A further 7 girls achieved 4 distinctions each and 19 girls achieved 3 distinctions.

Special mention must be made of **Josie Andrew**, who narrowly missed a full house of distinctions by one percent each in English and Afrikaans.

Congratulations

EN AVANT

7 Subject As

Tayla Barrett

Afrikaans First Additional Language, Design (91%), English Home Language, Life Orientation, Life Sciences, Mathematics (93%) and Physical Sciences

Jemma Boonzaier

Afrikaans First Additional Language, English Home Language, History (93%), Life Orientation (92%), Life Sciences (90%), Mathematics (94%) and Physical Sciences

Sarah Floquet

Afrikaans First Additional Language, English Home Language (92%), Life Orientation (93%), Life Sciences, Mathematics, Physical Sciences and Visual Arts (98%)

Rebecca Millard

Accounting, English Home Language, Life Orientation, Life Sciences, Mandarin Second Additional Language, Mathematics (91%) and Physical Sciences

6 Subject As

Chelsea Cordner

Afrikaans First Additional Language, English Home Language, Life Orientation, Life Sciences, Mathematics (93%) and Physical Sciences

Emma-Jane Gouws

Accounting (94%), Afrikaans First Additional Language, English Home Language, Life Orientation, Mathematics and Physical Sciences

Nicola Voges

Afrikaans First Additional Language, English Home Language, History, Life Orientation, Life Sciences and Physical Sciences

5 Subject As

Josie Andrew

Accounting, Geography, Life Orientation, Mathematics and Physical Sciences

Jessica Coxwell

Business Studies (93%), Dramatic Arts, English Home Language, Life Orientation and Life Sciences

Janet Lancefield

Dramatic Arts, Life Orientation, Life Sciences, Mathematics (92%) and Physical Sciences

Jessica Owendale

Design, Life Orientation, Life Sciences, Mathematics and Physical Sciences

Kei Repapis

English Home Language, Geography, Life Orientation, Life Sciences and Physical Sciences

Nicola Shakerley

Accounting, Geography, Life Orientation, Mathematics (91%) and Physical Sciences

4 Subject As

Dominique Basson

Accounting, Business Studies, Life Orientation and Life Sciences

Stephanie Behr

Design, Geography, Life Orientation and Life Sciences

Jane Dixie

Business Studies, Dramatic Arts, isiXhosa First Additional Language and Life Orientation

Indiphile Duda

English Home Language, Geography, isiXhosa First Additional Language (98%) and Life Orientation

Tebello Lenkoe

Business Studies, isiXhosa First Additional Language, Life Orientation and Mathematical Literacy

Paiton Levin

Business Studies (90%), English Home Language, History and Life Orientation

Vuyo Motsilili

English Home Language, isiXhosa First Additional Language, Life Orientation and Life Sciences

A-level and AS-level results

Angela Volschenk (pictured left) completed her Cambridge International A-Level programme this year in English Language, History and Music. She, along with eleven St Andrew's College boys completed their A-levels with an exceptional combined set of results, including 11 A* and 4 A symbols accounting for 40% of the subject results above 80%. All the A-level departments achieved above 30% distinctions per subject, with Further Mathematics, Chemistry and Mathematics achieving above 50% distinctions per subject. The hard work of pupils under their teacher's tutelage, and guidance by the CAIE Co-ordinator, Mr Graham Creese, deserve a standing ovation.

The next cohort of AS-level pupils have completed their AS-level and IGCSE examinations. Five DSG girls in Grade 11 achieved 10 A and 1 A* between them. Megan Barrow (4 A symbols), Zanel Lombard (1 A* symbol), Khanya Mabandla, Zenande Nduvane (2 A symbols) and Emily Orphanides (4 A symbols) have embarked on their CAIE A-level programme and we look forward to their A-level results in 2022.

L-R:
Megan Barrow,
Zanel Lombard,
Khanya Mabandla,

Below L-R:
Zenande Nduvane and
Emily Orphanides

It is noteworthy that, in the following departments with pupils in the IEB curriculum, more than a third of their candidates achieved distinctions:

- Accounting (40%)
- Business Studies (60%)
- Design (57%)
- Dramatic Arts (42%)
- isiXhosa (60%)
- Life Orientation (61%)
- Life Sciences (31%)
- Mandarin (100%)
- Mathematical Literacy (75%)
- Visual Arts (77%)

Six departments achieved averages above 80%: Business Studies, Design, isiXhosa, Mandarin, Mathematical Literacy and Visual Arts. Equally pleasing were the averages above 73% of several bigger departments: Accounting, Dramatic Arts, English, Geography, History, Life Orientation, Life Sciences and Music.

Despite another difficult COVID-19 year, the class of 2021 did us proud in the last academic year. The group is to be commended for maintaining good humour and resilience to end the year on a high note.

We extend warm congratulations to the class of 2021 and immense gratitude to the academic staff of DSG and St Andrew's College. We are proud of our academic record which is largely attributed to sheer hard work, integrity, continuing parental support and professionalism of our academic staff across the two schools.

As the Class of 2021 embarks on the journey into adulthood, we wish them much success and rich blessings. We will be following their further progress with interest and hope to see them often.
